Work experience

Full-Stack Developer

Since August 2021

[Stakimo](#), [Hunterfood](#), [Pro-meetup](#), [Nuvoleviaggi](#), [Fratelli B](#), [Ublo.immo](#) Paris, France

- Development of modern SaaS solutions for real estate sales, creation of web and mobile applications, and implementation of systems with technologies such as React, Node, TypeScript, Next.js, Nuxt, MERN, as well as other modern frameworks and tools.

Founder & Full-Stack Lead Developer

Since December 2024 [Mousalla](#) Paris, France

- Designed and developed a mobile application connecting users to nearby hosts offering safe and welcoming spaces for temporary use. Managed the entire development process, including geolocation integration, real-time updates, and scalable backend architecture, ensuring accessibility and ease of use.

Front-End Developer

From April 2023 to August 2023 [Rakuten](#) Paris, France

- Migration of JavaScript code to TypeScript, development of React components, end-to-end testing with Cypress, and project management in a bilingual agile environment.

IT Instructor

Since February 2023

[Efrei](#), [Epitech Digital School](#), [MyDigitalSchool](#), [Doranco](#), [Aston](#), [The Bridge](#), [Alt-RH](#), [Konexio](#), [Evogue](#) Paris, France

- Preparing, organizing and giving programming lessons, as well as correcting students' exercises and practical work.
- Students' profiles covered all levels, from first-year undergraduates (Bac +1) to master's level students (Bac +5). So I had to adapt my teaching to their level and needs.

Technical Content Specialist for Software Testing

Since November 2024 [Isograd Testing Services](#) Paris, France

Responsible for reviewing and optimizing technical content for software testing services, ensuring clarity, accuracy, and alignment with client requirements.

Education

Certificat, Data science, Cybersecurity

From September 2023 to June 2024

[University of California, Los Angeles](#) Los Angeles, CA, USA
3.48 GPA

Computer Expertise and Innovation

From 2020 to 2025 [Epitech Paris](#) Paris, France

- Self-taught Developer
- Information Technology Expert
3 GPA
